ABOUT THE PROGRAM

You Bring the Curiosity. We Bring the Blueprint.

ALPHA is an 8-week virtual industry shadowing experience for high school students looking to gain real-world skills in innovation, problem-solving, and leadership. Students work in teams to tackle global challenges, build prototypes, and present their ideas on Demo Day.

ABOUT THE PROGRAM: 2026 PROGRAM TRACKS

**Your ideas deserve more than a notebook.
They deserve a team, a process, a prototype, and a stage.**

This summer, you will not just learn about innovation. You will practice it.

Back of card 1: Smart & Sustainable Cities

Explore urban innovation and sustainability, researching how technology can make cities smarter, greener, and more livable for future generations.

Back of card 2: AI in Everyday Life

Discover how artificial intelligence is transforming daily experiences—from healthcare to education, transportation to entertainment.

Back of card 3: Digital Product Design

Learn the full product design cycle: from empathising and ideation to prototyping and testing. Build digital solutions that solve real problems.

Back of card 4: Environmental Impact

Tackle environmental challenges through data-driven research and innovative solutions. Develop projects that address climate change and sustainability.

ABOUT THE PROGRAM: PHASES

Your 8-Week Alpha Roadmap

Every week has a mission.
Every mission moves you closer to your final solution.

Onboarding : Understand the Why, Who, What, and How.

Insight : Turn a Big Issue into a Real Problem.

Innovation : Move from Insights to Ideas.

Demo day : Build small. Learn fast. Improve smarter.

+++++

ABOUT THE PROGRAM: THE ROADMAP

Find everything you need to manage your journey once you log in.

Inside the LMS, you can view your weekly missions, watch instructional videos, download templates, submit deliverables, track your progress, receive announcements, and more.

Onboarding

Understand the Why, Who, What, and How

- Attend the kickoff session,
- Meet your team,
- Understand how the program works,
- And begin learning the habits of strong innovators.

Insight

Turn a Big Issue into a Real Problem

- What problem do you want to investigate?
- Who is affected?
- Why does it matter?
- What assumptions do you need to test?

Innovation

Move from Insights to Ideas

- Form “How Might We” questions
- Generate multiple solution ideas

- Refine top, shortlisted concepts
- Choose 1 solution direction

Demo Day

Build small. Learn fast. Improve smarter.

- Discover your top assumptions
- Understand what you will build
- Develop your final solution and prototype
- Prepare for the showcase
